Dear colleagues,

Thank you for responding to this survey regarding the potential for a new journal in occupational science.

If you have not already responded to the survey, please accept this friendly reminder to make your views known!

This survey is being sent to several email lists, however, we encourage you to forward this survey to your colleagues and students who have an interest in occupational science and occupation-based practice.

Click here for Survey  
[Preferences Regarding an SSO:USA Journal Fully Inclusive of All Occupational Science Work](#)

The Society for the Study of Occupation: USA has charged its Journal (Scientific Publications) Task Force with gathering information regarding the value and likelihood of users engaging with a new journal in occupational science through research, teaching, practice, and submitting content for publication.

This completely anonymous survey will take about 10 minutes. Your responses are critical to moving this project forward. Please respond by 2/21/21.

Thank you for contributing to this project. ~The Journal Task Force
